

**Starting your own business is both the most exciting and most daunting experience ever.**

Well done on taking the plunge to set your great money-making idea into motion and registering with Company Partners to assist you with the company registration documentation, tender compliances and more.

Nedbank recognises entrepreneurial spirit and is inviting registered members of Company Partners to take advantage of an exclusive small-business service offering.

As a client of both Nedbank and Company Partners you will be able to take advantage of the following banking perks:

## Day-to-day banking

---

- Open your business account within 24 hours.
- Receive a visit from an acquisition manager at your place of work.
- Enjoy a one-stop banking experience with the services of a dedicated relationship manager.
- Get competitive pricing on transactional banking through our tailor-made small-business bundle accounts.
- Receive the same benefits as above if you are a director or associated party opening a Nedbank account in your personal capacity.

## Flexible finance options

---

- Get access to GAP Access™, the first of its kind in the market. Realise the full potential of your business with quick and easy access to money.
- Finance your vehicles, machinery, equipment and commercial property with our mainstream asset finance option.
- Qualify for specialised finance through invoice discounting and debtor factoring.
- Receive 1% cash back on the purchase price of your home, up to R15 000, if you apply for a home loan online and it is approved.

## Investments and insurance

---

- Qualify for a variety of investment products.
- Receive specialist advice from a qualified financial planner to assist with key man protection and buy and sell agreements.
- Get great rates on short-term insurance.

## Banking and beyond

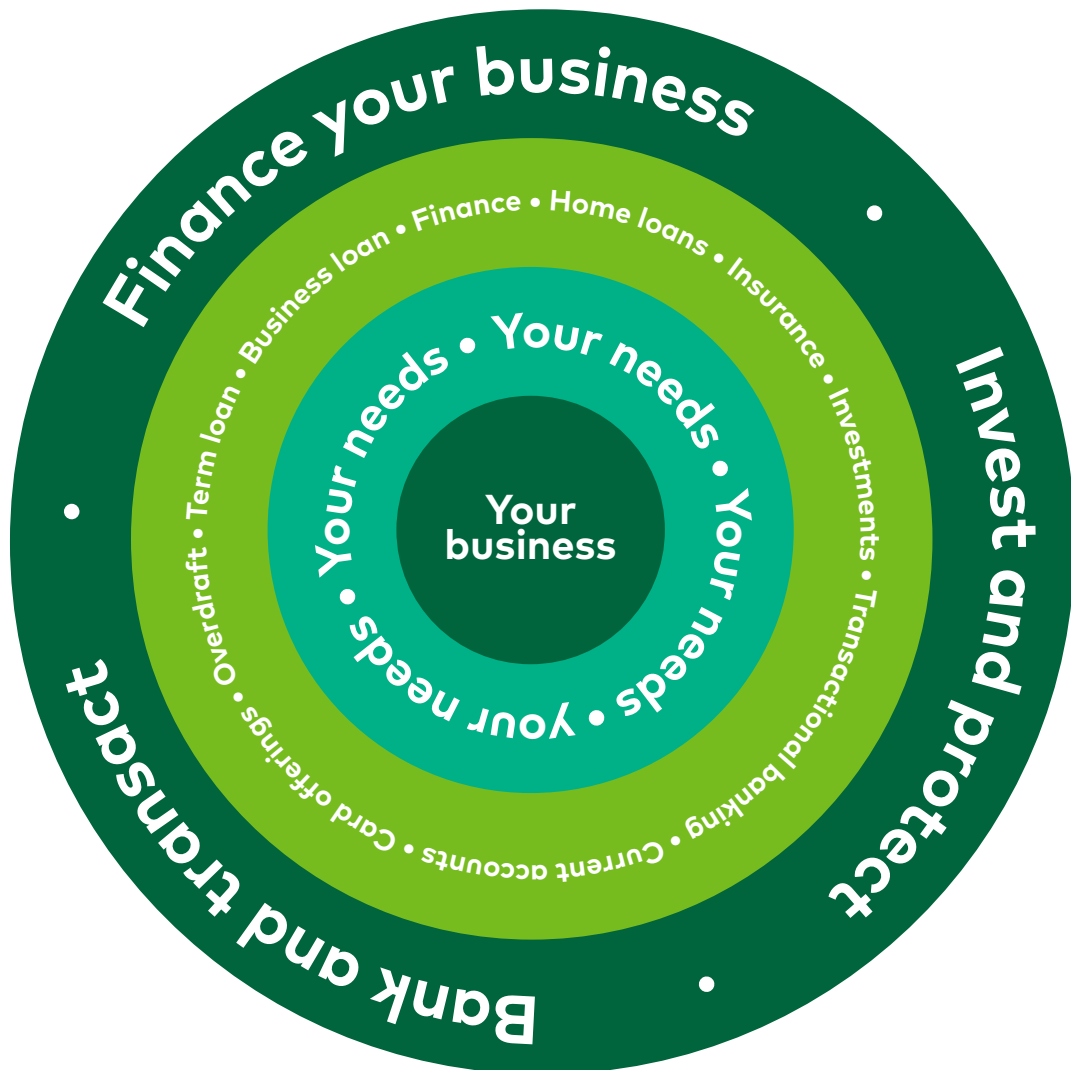

---

- Qualify for a free *Essential Guide for Small-business Owners* when you open your Nedbank business account.
- Register on SimplyBiz to network and read about industry trends, so that you are always a step ahead.

## The Nedbank approach
